**NAICS: 333514, 333517, 332710**

## **CAPABILITIES STATEMENT**

**Single-Source, High Precision Tooling Solutions**

### **About Diversified Design & Mfg, Inc.**

Diversified Design & Manufacturing, Inc., headquartered in Southeast Wisconsin, supplies high quality design, tooling, manufacturing and specialty machining to customers throughout the globe. Specializing in the engineering and build of high precision gaging and fixturing, we have earned the reputation as the tight tolerance experts.

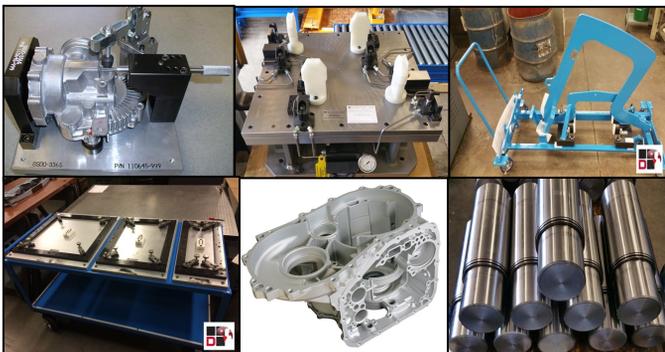

#### **Core Competencies**

- Engineering Services
- High-Precision Gages
- High-Quality Fixtures
- Tight Tolerance Components

#### **Differentiators**

- Experienced team with decades of award-winning engineering solutions
- Tight tolerance expertise in precise machining, manufacturing and inspection
- Precision up to .00005" Grinding Tolerances.
- Industry experience solving challenges across sectors
- Rapid prototyping expertise to guide product development decision
- Designed, engineered and manufactured in the United States
- 100% quality assurance of our service
- Quality is our promise – ISO/AS-9100 Certified!

#### **Past Performance**

#### **Featured Clients**

- Rockwell Automation
- Copeland
- Amron
